PROFILE

Business growth strategist with experiences in B2B partnership models and customer lifetime value (CLV) optimization. Experienced in boosting online visibility, user engagement, and e-commerce performance for SMEs and media projects. Leverages a strong accounting/finance foundation and MBA-level business analytics, optimizing digital channels and supporting e-business adoption to drive ROI and digital transformation.

PROFESSIONAL EXPERIENCE

Delivery Hero, Kuala Lumpur, Malaysia

Jan 2022 – Aug 2023

Business Development

- Monitored and analyzed commercial performance of potential APAC clients daily across Cambodia, Laos, Malaysia, Myanmar, Philippines, Singapore and Thailand markets to optimize revenue and retention.
- Translated raw Salesforce data into actionable weekly performance dashboards for clients, empowering them to make informed, data-driven decisions on menu optimization and promotional timing.
- Generated a 12% uplift in average order value by identifying a key cross-selling opportunity through Salesforce data analysis and implementing it in subsequent marketing campaigns.
- Managed over 1000 clients' retention program using targeted email marketing and proactive support, which reduced client churn by 25% over a 12-month period.

Wong Leong & Associates PLT, Kuala Lumpur, Malaysia

Sept 2020 – Dec 2020

Audit Intern

- Assisted with audit procedures to ensure compliance with MPERS and MFRS across various organizations.
- Supported the audit team in assisting senior auditors with the coordination and execution of audit plans, including task assignment and timeline tracking.

RELATED PROJECTS

Applied Business Project with Medical Avenue Korea | August 2025 – December 2025

- Developed a monetization and partnership framework for a medical tourism platform by restructuring service packages and B2B collaboration models to prioritize high CLV segments.
- Conducted market research and competitive benchmarking to support scalable expansion strategy and improve the service ecosystem coordination between international clients and medical providers.

TTOC – Table Talk Over Coffee | Freelance - Remote | June 2025 – November 2025

- Improved online visibility and booking flow for TTOC's website, contributing to full booking capacity for the 2025 calendar year.
- Implemented content structure, business strategies, and CTA improvements to support consistent inbound traffic and conversion.

AI Powered Solutions for NYC's Congestion Surcharge | April 2025 – May 2025

- Built predictive classification models (ROC AUC 0.913) on 3M+ records to simulate pricing policy impacts under different regulatory scenarios.
- Designed scenario-based sensitivity analysis framework to evaluate revenue and fairness trade-offs.
- Translated model outputs into strategic pricing recommendations.

Demand Forecasting for Strategic Business Decisions | January 2025 – February 2025

- Developed time-series forecasting models (ARIMA, SARIMA, SARIMAX, Prophet) to predict demand fluctuations and inform inventory and capacity planning.
- Evaluated model accuracy using MAE and RMSE to optimize forecasting reliability.
- Identified key demand drivers to support proactive budget allocation decisions.

EDUCATION

Sungkyunkwan University, Graduate School of Business, Seoul, Korea.

Aug 2024 – Feb 2026
